### II, RATIONALE :

The success of the feeding program of the Forty (40) indigent children of Barangay Zone II, Digos City, Philippines, which was introduced by the **Timeout Café & Ministry, Oslo, Norway**, has encouraged the activity for another three (3) months & 2 weeks before the program can move on if possible to another depressed barangay of Digos City. The progress shown for four months made them decide to continue their missionary works. The indigent malnourished children of Barangay Zone II were already glowing with hopes and aspirations in life and also because of the help extended to them.

The joint ventures of the program of activities that the teachers and organizers shared to these kids, positively resulted to nourished their sensory perception and came to the extent of developing their intelligence through vocabularies, spelling and perception building. They also learned how to develop their skills and talents for the span of four months. They know how to paint, draw, dance, sing, and declaim. The value of sportmanships especially in competition like playing the indoor games was practiced. Everybody observed that the children personally developed a healthy attitude, they gain weight, grow, glow and go with oozing energy and vigor. The mission and vision to feed them not only physically, mentally, emotionally and morally but also spiritually as well, were attained with flying colours. The value of **self respect, love of parents, elders, peers** and most especially **love of Jesus Christ** that were instilled in their minds were successfully achieved. We therefore give thanks to our **LORD JESUS CHRIST.....**

The goal to initiate and to share another proposal for the extension of the feeding program with a cause to the local Government Units in Digos City, through the support of the Barangay Captain, Richard B. Lim and kodos to the Barangay Health Workers, & to the Barangay Tanods schedully assigned to this activity this project was made possible.
